Bangalore, Karnataka

[Aishwarya H linkedin](#)

PROFILE SUMMARY

Aspiring ML Engineer with a strong foundation in Python, Machine Learning, SQL, and Data Analytics. Skilled in data preprocessing, feature engineering, supervised and unsupervised machine learning and model development using Scikit-learn, Pandas and NumPy. Familiar with AWS cloud services and database management. Passionate about developing intelligent solutions to address real-world challenges, with strong problem-solving, communication, leadership, and team management skills.

EDUCATION

Bachelor of Engineering

Basaveshwar Engineering College
Bagalkote, Karnataka

2022 – 2026

CGPA -8.51

SKILLS & COMPETENCIES

Programming Languages: Python (Data Types, Control statements, Functions, Recursion, OOP, Functional Programming, Comprehension, Exception Handling, File Handling, Modules, Advance Python).

Machine Learning: Supervised Learning, Unsupervised Learning, Feature Engineering, Scikit-learn.

Databases: Oracle SQL (DQL, DCL, DDL, DML, TCL, Clauses, Joins, Subqueries, Correlated Subqueries, Functions, Views, Constraints, Normalization, Query Optimization)

Web Technologies: HTML, CSS, Javascript.

Data Analytics: NumPy, Pandas.

Cloud : AWS (EC2, S3, IAM, VPC, NAT Gateway).

Tools: VS Code, Google Collab.

Soft Skills: Problem Solving, Communication, Leadership, Team Management.

ACADEMIC PROJECTS

ACE-AI BASED COGNITIVE EDUCATION (Major Project)

- Engineered AI e-learning platform with RAG personalization & LLM evaluation.
- Implemented YOLO-based secure proctoring system.
- Built scalable backend using Node.js, FastAPI, MongoDB, Redis.

VEHICLE RENTAL SYSTEM (Minor project)

- Developed web-based rental system using HTML, CSS, JS, Python.
- SQL Implemented booking, authentication & dynamic allocation.
- Designed admin dashboard with tracking & feedback system.

INTERNSHIP

01/2026 – 04/2026

Python Full Stack Development , PYSPIDERS

- Completed training in Python Programming, covering core concepts such as functions, loops, problem-solving and advanced concepts.
- Gained hands-on experience in Web Technologies including HTML, CSS, and JavaScript for building responsive and interactive web applications.
- Learned Oracle SQL for database management, including writing queries, data manipulation, and table operations.

CERTIFICATIONS

- Mastering Cloud Fundamentals with AWS , Algo Tutor Academy
- Completed UI/UX for Beginners – Simplilearn SkillUp
- Programming Foundations: Fundamentals, LinkedIn

ACHIEVEMENTS AND LEADERSHIP

- Chair, IEEE BEC Student Activities (SAC)
- Led planning and execution of 5+ state-level workshops and hackathons, coordinating teams and managing event logistics.
- Volunteer, IEEE WAVE 2.0 National Level Hackathon.
- Led teams in planning and executing technical events.
