PROFILE SUMMARY

Aspiring ML Engineer with a strong foundation in Python, Machine Learning, SQL, and Data Analytics. Skilled in data preprocessing, feature engineering, supervised and unsupervised machine learning and model development using Scikit-learn, Pandas and NumPy. Familiar with AWS cloud services and database management. Passionate about developing intelligent solutions to address real-world challenges, with strong problem-solving, communication, leadership, and team management skills.

EDUCATION

Bachelor of Engineering

Basaveshwar Engineering College
Bagalkote, Karnataka

Dec 2022-Jun 2026

CGPA :6.43

SKILLS & COMPETENCIES

Programming Languages: Python, SQL, JavaScript

Frontend: HTML, CSS, ReactJS

Databases: Oracle SQL

Data Analytics: NumPy, Pandas

Machine Learning: Supervised Learning, Unsupervised Learning, Feature Engineering, Scikit-learn

Cloud & Version Control Tools: AWS, Git, GitHub, Linux

Soft Skills: Problem Solving, Communication, Leadership

PROJECTS

AI-Powered Cognitive Education Platform | Python, FastAPI, MongoDB, Redis, ReactJS

- Developed an AI-powered e-learning platform integrating Llama models to automate assessments and reduce manual evaluation effort by 60%.
- Designed personalized learning assessments and AI-based interview evaluation modules for improved user experience.

SUIT SPOT (Minor Project) | MERN Stack

- Developed an e-commerce platform with secure authentication, dynamic product listings, cart, and checkout functionalities.
- Built a responsive and scalable application with seamless frontend and backend integration for cross-device usability.

INTERNSHIP

Jan 2026-May 2026

Python Full-Stack Development Intern | PYSPIDERS

- Completed training in Python Programming, covering core concepts such as functions, loops and problem-solving.
- Gained hands-on experience in Web Technologies including HTML, CSS, and ReactJS for building responsive and interactive web applications.
- Learned Oracle SQL for database management, including writing queries, data manipulation, and table operations.

CERTIFICATIONS

- Mastering Cloud Fundamentals with AWS, Algo Tutor Academy
- Programmm Foundations: Fundamentals, LinkedIn
- UI/UX for Beginners – Simplilearn SkillUp: Learned UI principles, wireframing, prototyping, and usability testing.

ACHIEVEMENTS AND LEADERSHIP

- Chair, IEEE BEC Student Chapter (AESS)
- Led planning and execution of 5+ state-level workshops and hackathons, coordinating teams and managing event logistics.
- Volunteer, IEEE WAVE 2.0 National Hackathon.
- Led teams in planning and executing technical events.
